- Accepts 10" / 20" DOE Style Cartridge
- Meets FDA Requirements for Applications Requiring Filtration of Potable Water, Food, or Beverage Products
- Maximum Operation Pressure is 8gpm for 125 Psi / 8.6 bar @ 125°F / 52°C

### Specifications

#### a) Housing Material

- Head – Polypropylene
- Body – Styrene Acrylonitrile (Clear)  
– Blue Polypropylene (Blue)

#### b) O-ring Material

- E – EPDM (Standard)
- B – Buna N
- N – Neoprene
- V – Viton<sup>1</sup> A

#### c) Type

- BH – Blue Housing
- CH – Clear Housing

#### a) Size

- 1L – 10" (135 mm (Dia.) X 315 mm (L))
- 2L – 20" (135 mm (Dia.) X 580 mm (L))

#### b) Connection

- Inlet – 3/4" NPT Thread
- Outlet – 3/4" NPT Thread
